family workshop - children's workshop - outdoor teambuilding
Mobile +43 (0) 660/1850892, www.kinder-workshops.at

Being able to navigate correctly is important for everyone who loves exploring the mountains and the open countryside.

This workshop features 2 different adventure routes:

In this workshop, children and adults playfully learn how to use a compass correctly.

- Who invented the compass?
- How do you use a compass?
- How do I navigate in the open country?
- What other ways to navigate are there?

All of these questions will be answered in our family workshop. In addition, the children will learn how important it is not to leave litter behind in nature.

We will also discuss and show the right way to behave around grazing cattle. And we will learn how important it is to help each other out in difficult situations. All of these topics will be brought together in an adventurous search game.

1. Hopsi play course for families with children between 5 and 8 years of age

5 control points; each family will receive a compass along with a sheet of paper with the 5 coordinates of the different control points. The distance between control points is measured in jumping or hopping strides etc. (about 40 cm per jump). Duration: about 20 min

2. Hopsi race course for families with children between 7 and 14 years of age

10 control points; each family will receive a compass along with a sheet of paper with the 10 coordinates of different waypoints. The distance between waypoints is measured in children's steps (about 50 cm). Duration: about 30 – 40 min

Please note: Children must be accompanied by an adult
No registration required.
Every family receives a certificate.

 Wild moments, fast descents, fun
and games - on the Wilder Berg in
Mautern you will never be bored!

The chairlift floats gently over the
animals to the mountain station.
Around 300 Alpine animals welcome
guests to Wildpark Mautern. Fee-
dings with the keepers and the
bird of prey show provide exciting
insights into the secrets of wildlife,
while at the children's farm, the
animals can even be petted.

Fun and games await you at the
Kinderstadl with a giant slide, a
climbing tower and a haystack
where you can romp and jump.
For active children, the park offers
meter-high slides, swings, carousels
and water features. In some cases, a
fee is charged. When hunger strikes,
there are lots of delicious refresh-
ments for the kids to enjoy.

If you want to take a fast ride down
to the valley, you can hop on a
mountain kart or the Alpine Slide.
On days you prefer to hike, the
interactive forestry theme path from
the mid- to the valley station will
definitely appeal.

Tip: As a child-friendly alternative
to the chairlift and not dependent
on weather, guests can also take a
shuttle bus to the mountain station.
In high season, a big bus provides
regularly scheduled service as
posted.

SÖLKPASS

TIP

The historic north-south Alpine axis is today one of our proud cultural treasures. At 1,788 m above sea level, it is Styria's highest mountain pass, connecting Ennstal and Murtal valleys. Even back in the Bronze Age, the pass was used to transport

valuable salt south from the Salzkammergut. On the return journey, wine, spices, fabrics and southern fruits were packed north back over the Alpine divide. Schloss Grosssölk's role was once to protect the trade route through Sölkthal.

ANCIENT WALLS AND CONTEMPORARY ART

TIP

Ancient walls, such as the Wolkenstein castle ruins in Wörschach or the ruins of the Ägydius church in **Donnersbach**, attest to the region's long history. Also worth visiting is the Glattjoch chapel in **Donnersbachwald**. Perched at 1,989 meters above sea level, it is the highest chapel in Styria, reachable in about 3.5 hours via a hiking path. Also a beautiful lookout point in combination with a

hike: the Stalingrad Cross in **Aigen**. The chapel there reminds us of the many who fell at the Battle of Stalingrad from 1942 to 1943. Culture lovers will find in the **Irdning** Sculpture Park as well as throughout town works made of wood and stone, created by Austrian and international artists.

MARALM-TRAIL

„SALZBURG - STYRIAN ALM CIRCULAR ROUTE“

TIP

The starting point of the hike is the car park at Gasthof Dachsteinruhe (closed) on the Styrian-Salzburg border between Filzmoos and Ramsau. On foot or by shuttle bus (runs every half-hour from 08:30 a.m. to noon and from 01:00 to 05:00 p.m.), along the alpine lane to the marmot meadow on the Schaidlalm below the Bachlalm hut. Then it goes from the Schaidlalm on trail no. 671 in an easterly direction to Marboden. From the easy hiking trail, you are constantly treated to impressive views of the steep

rockfaces of the Dachstein. Through a sparse larch forest, we continue from Marboden to the huts of the Neustattalm and along the Dachstein road to the Glös-Alm. After a forest path through a brief wooded area, you come to the Luxwiese, where you meet the Duregg trail (No. 8). After a last look at the impressive three-pronged peaks of the Torstein-Mitterspitz-Dachstein, you will follow the narrow alpine path down to the Dachsteinruhe, the original starting point.

Awarded as “Austria's Best Summer Lift”!

Float on 5 operating days (FR, SA, SUN, MON, TUE) with both chair-lifts to the summit experience and hiking area of the Riesneralm.

Nestled atop the summit plateau of the Riesner Krispen at 1900 m above sea level, the Riesneralm offers memorable mountaintop experiences true to their motto “MORE MOUNTAIN – MORE ADVENTURE”.

Well-known highlights of the Riesneralm include the “tierHOLZpark”, which even won a tourism prize, as well as the “HochSEEsitz” and, the big recent sensation, a modern panoramic summit pool which evokes a 1950s original.

It is not for nothing that the “Gipfelbad anno dazumal” was the only Styrian company to receive the Austrian Tourism Award.

But others, too, continue to be must-see classics for visitors, including the “UNIVERSUM” exhibition, the “1st European Barefoot Summit Path”, the “KRISPINI Children's Treasure Hunt”, the Hochsitz JAGasteig and the two “Square-chairs”. The rustic-style “Hochsitz” summit hut, with its unique 360° sun terrace and a pine room with summit lounge, never fails to impress visitors.

NEW: Avalanche [GALLERY] at the summit of art. For the first time, a winter avalanche gallery is used for a cultural project.

Trautenfels Castle is enthroned on a rocky outcropping at the foot of the Grimming. It was here that a castle by the name of Neuhaus was first mentioned in 1261. In the 17th century, the building was remodeled by Count Siegmund Friedrich von Trauttmansdorff in the style of the Baroque. The high-quality frescoes were created by Carpofo Tencalla, the stucco work by Alessandro Sereni. Since the structure underwent thorough rehabilitation work in 1992, visitors are also surprised by modern architectural elements in the midst of this historic building. The regional heritage museum housed at Trautenfels Castle presents the cultural and natural history of the Styrian Ennstal and Ausseerland regions in a series of 13 kaleidoscope-like rooms. The lookout tower, open to the public, affords broad views across the alpine world of the Ennstal. Accessible to people with mobility limitations and those with learning disabilities.

SPECIAL EXHIBITION 2021

Summit Assaults Styrian expeditions to the roof of the world

A highlight of Styrian alpine history was written 43 years ago: The first Austrians stood on top of the world's highest mountain, Mount Everest! Robert Schauer from Graz was, together with Wolfgang Nairz and Horst Bergmann from Innsbruck, one of the first Austrians to climb to the “rooftop of the world” on 3 May 1978. This exhibition shows the expeditions of Styrian men and women as they explored the highest mountains in Asia. Tales of mountaineering adventures are brought vividly to life through a multimedia presentation of historical and current documents along with the original objects on exhibit.

Open from 27 March to 31 October 2021.

The Nickel Museum is a "walkable showcase" housing a permanent exhibition which impressively documents the mining tradition of the Schladming region. The central focus is on the processing and subsequent use of nickel, once and even now a highly sought-after metal. Traces of the past leave a lasting impression on visitors, while the extraordinarily dangerous work of the miners

becomes clearly evident. The imp, whose name also happens to be "Nickel", injects extra life into the exhibition for kids, motivating them to learn even more.

Tip: round the furnace

This easy, short circular hike leads from the Wehrhofalm to the historic nickel smelting furnace, suitable for prams. Duration: approx. 1 hour and 15 minutes

Accessible for people with limited mobility, child-friendly museum

Main themes include the tourism development of the town, the unique birth and preservation of the Protestant faith in the Catholic Habsburg realm, with a focus on the time of the Reformation, Counter Reformation and secret Protestantism, and of course, the whole Dachstein theme, its first ascent, development and exploration. The topic of hunting and its history is also given significant space in a special permanent exhibition.

The visitor experience is further enriched by temporary special exhibitions from a variety of different fields.

Our "little" guests are joined on their tour of the museum by our mascot "Klaus the Mouse".

Interactive installations, historical objects, pictures and films allow you to perceive and experience, surmise and discover unique aspects of the Ramsau area.

The museum shop in the entrance area carries historical and contemporary regional literature, photos and films about Ramsau and the Dachstein, arts & crafts souvenirs, as well as regional products, plus much more.

Special Exhibition 2021

In our special exhibition "Time Window", we will show you in word and images focused on different theme areas the massive changes in lifestyle and appearance of Ramsau am Dachstein over the last 100 years.

So-called "Time Windows" in the Ramsau am Dachstein countryside complement the special exhibition.

DO YOU ALREADY KNOW...? in Forstau

PATH OF ST. LEONHARD – LOURDES CHAPEL

TIP

The Path of St. Leonhard begins at the cathedral in Salzburg and ends in St. Leonhard outside Tamsweg, though it also leads through **Forstau**. The parish church in Forstau (built 1742) is likewise consecrated to St. Leonhard. At the bottom of a short pathway, we come to the Lourdes Chapel. This chapel on the banks of the Forstaubach commemorates the visions of the Virgin Mary and the miraculous healings associated with Lourdes, the famous pilgrimage destination in France. Its most striking feature is a grotto with stalactites. In part,

they were brought here especially from France, while the rest originated in the Forstau area adjacent to the Oberhüttensee. A Madonna in Neo-Baroque style, which could be positively identified as a Lourdes figure, is embedded in the stone grotto.

The chapel has remained unchanged since it was established. In 2004, the Lourdes Chapel was designated as a listed monument. The chapel is open to all interested visitors.

ART & CULTURE

TIP

The biggest amateur theater in the Alpine region puts on regular performances and transforms the entire town into a stage.

“Die Hochzeit” (“The Wedding”) has a historical theme and revolves around the love story of Archduke John and Anna Plochl. Written by famous poet Paula Grogger, it never fails to captivate thousands of viewers sitting out on a village square that has remained unchanged for centuries.

The Öblarn art & cultural association [ku:L] hosts a wide variety of events: concerts including folk music, jazz and classical, travelogues, improv theater, cabaret, children's movies, yodeling and dancing classes, exhibitions,...

The goal is to offer art and culture in rural areas, thereby making these areas even more appealing. [ku:L] sees itself as an open, tolerant institution for encounters that span generations; where imagination and creativity are allowed to unfold.

 The Austrian Outdoor Museum
in Stübing near Graz is one of the
ten biggest of its kind in Europe.
The biggest and central outdoor
museum in Austria, it highlights the
various types of buildings typical of
our different provinces.

During this journey through time
and across Austria, the 100 historical
buildings tell fascinating stories
about the daily life and work of our
rural population in years past. A full,
colorful annual program including
crafts, traditions, festivals, children's
afternoons and more, for all the
variety and fun you could possibly
wish for.

The main topic in 2021 is
**“All home remedies -
Of herbs, ointments and forgotten
healing traditions“**

In earlier times the rural population
trusted the knowledge of folk medi-
cine almost completely, because
the way to the doctor was once
very long and too expensive for
the farmers. Every farm and every
chaste used to have a garden with
vegetables, flowers, herbs and
medicinal plants.

The thematic focus spans a range
from the so-called farmer doctors
and “all sorts of healing knowledge”
to forgotten home remedies, peas-
ant healing traditions and typical
regional uses. Ancient knowledge
about home remedies and folk
medical healing methods also ac-
company the events and educational
programs and thus offer a varied
annual program. The start will be
celebrated on 16 May 2021.

The Erzberg is a world unique unto itself. It is the biggest, most modern open-cast mine in Central Europe, the most important ore storage site in the Alps, the cradle of industrialization in Austria, and the venue for the hardest Enduro race in the world: the Erzberg Rodeo.

HAULY RIDES

Along the way, you will see how the different stages of open-cast mining work. During this hour-long drive, you will learn lots about the Hauly itself, ore mining and the daily work of a miner. Plus, you'll get to see where the Erzberg Rodeo takes place.

LIVE BLASTING

Every Thursday, you have the opportunity to take a one-hour Hauly ride and see how 50,000 tons of rock

are blasted away, one layer after another. You will also receive a list of the standard blasting procedures to take home with you as a souvenir.

During a guided tour through the subterranean labyrinth of the Erzberg lasting about one-and-a-half hours, you will get to know the underground working world of miners. You will learn about how the Erzberg was created, hear the legend of the "Wassermann" and how the mountain was first discovered, and get to witness an audiovisual reenactment of blasting. And for those of you who wish to lend a hand, you are welcome to grab a shovel or one of the pneumatic hand drills!

In the STEIERMARK SCHAU, Styria is reflected in many voices and in many ways.

The country's exhibition takes up social questions about history, present and future and prepares them from the perspective of art and culture.

Three museums of the Universalmuseum Joanneum deal with Styrian history and developments in society in their exhibitions at the STEIERMARK SCHAU.

The Museum of History deals with the question of "what was" in its contribution, while the newly designed **Folklore Museum** in Graz addresses the topic "how it is". Under the title "what will be", the **Kunsthau Graz** dares to take a look at possible futures in Styria.

Each location offers an intensive examination of Styrian history and society in its exhibition. Together, the four exhibitions open surprising perspectives and perspectives on the people of Styria and their culture.

The **mobile pavilion**, as an exposition of the new large "Exhibition of the State", is also in Schladming from August 14th to September 5th. In a monumental video installation on an area of 800 square meters, the title "who we are. Art - Diversity - Landscape" shows an analysis of the present on Styria exclusively in moving images.

With an innovative exhibition architecture, the pavilion crosses the regions of the country and tells in a large-format and impressive panorama of films about Styria as a land of art and artistic research. Art is shown as an essential part of all areas of life.

i Riesach Waterfall is the tallest waterfall in Styria. From the Riesach car park in Untertal, the alpine trail “Durch die Höll” takes you via a series of stairways and paths and over a suspension bridge, alongside the Riesach Waterfall to the Gföllalm on the Riesachsee. This trail does require you be sure-footed and not have any dizziness issues, and from the suspension bridge on is not suitable for dogs or small children. The car park is also the starting point for the popular high-alpine Klafferkesel hike, to the Preintaler and Golling huts.

The “Alpinsteig durch die Höll” trail is a section of the “Wild Waters” theme path, which begins in Schladming. It leads through wild, romantic Talbachklamm Gorge to Untertal. The hiking path from Schladming along Untertal valley is a rewarding hiking- and walking path for families and seniors, and is free for everyone to enjoy.

Use the free hiking bus (s.p. 45) for this excursion into the Untertal and the experience “Alpinsteig durch die Höll” is also included.

Gerlinde Kaltenbrunner is the first woman to conquer all fourteen 8,000-meter peaks without additional oxygen. She is the patron of the museum “Welt der 8000er” and has made films, photos and equipment available for the exhibition.

The museum will whisk you away to the world of 8,000ers. Experience for yourself how the weather feels atop the world's highest mountains, as well as the physical dangers of such an undertaking.

Complete expedition equipment shows how much planning goes into an adventure like this, while Gerlinde's fully packed summiteering rucksack is just waiting for visitors to try to pick up and carry through the museum.

Audio stations also provide insights into the thinking of one of the world's best female climbers. Listen as Gerlinde talks about fear, responsibility and moments of pure joy.

TIP: Standing in front of the museum is a climbing tower modeled on K2. This is accessible during the museum opening times.

Offer for children:

A quiz booklet inspires children to explore the exhibition independently. Where are the highest mountains found? What gear do you need in the mountains? What are the potential dangers of hiking into the mountains? Interactive education stations make the theme interesting for children.

Terms & Conditions

The following conditions are expressly stipulated for the issuance and use of the Sommercard.

Definition

The Sommercard allows all people who are staying at any of the Card's participating lodging establishments during the Sommercard season, and who are registered with an officially designated registration form, to take full advantage of the stipulated services offered by Sommercard partner businesses. The services are specified and listed in the brochure "Card Brochure 2021". In addition, there are also discounted services (Bonus Services), which are also compiled in this same brochure.

Scope of Services/Liability Disclaimer

All Sommercard partner establishments listed in the brochure in question have obligated themselves to make available to holders of the Sommercard all of their advertised Sommercard services, both with regards to time and quantity, in accordance with and with respect to their own general conditions of carriage and business, this during their usual hours of business and to their full extent. Holders of the Sommercard understand and accept that the operating times of some partners, primarily due to weather- or season-related circumstances, are not always identical with the full time frame of the Card season. With some business, there may be long waiting times due to capacity-related reasons.

The holders of a Sommercard declare their agreement with the listed opening times, any and all access restrictions, as well as with the maximum capacity as stated by participating establishments. Holders waive any and all damage claims when, whether for operational reasons, or due to no fault of the service provider, the services offered cannot be provided, either in part or in whole. Furthermore, the service providers are liable for gross negligence and premeditation, but not for slight negligence. In addition, no liability exists for any accompanying clothing or other accompanying valuables.

Holders of the Sommercard furthermore understand and accept that the ARGE Schladming-Dachstein Card is entitled to end its agreement with the individual Card service providers if there is important cause to do so, even during the current season. No claims of whatever kind may be asserted as a consequence of such action.

Partner businesses provide their services under their own authority and as legally independent entities. The Sommercard entitles the holder to avail him- or herself of the offered services, though the concrete service agreement is only with the partner business whose services are currently being used. Liability with respect to Sommercard holders, whether contractual or legal, pertaining to incidents occurring during involvement in the proffered services, is borne exclusively by the business under whose purview the incident occurs. Liability for other partner businesses of ARGE Schladming-Dachstein-Card does not exist.

Conditions for Issue of the Sommercard:

The participating lodging establishment is obligated to draw the guest's attention to the Sommercard, regardless of the length of his stay.

A guest staying at a participating lodging establishment receives the Sommercard from his host for the length of his stay. Precondition for issuance of the Sommercard is that the guest, in accordance with legal statutes, has registered with the establishment for the duration of the stay. The Sommercard must be signed by the guest, at which point the Card becomes valid. Data privacy statement see: www.schladming-dachstein.at/en/summer/sommercard/gdpr

Non-Transferability/Loss

The Sommercard is non transferable. The Sommercard is only valid when accompanied by a photo ID. The Sommercard may only be used by the person whose name and identification number are noted on the Card or stored on the chip. In the event that the Sommercard is not utilized, no reimbursement will be made. A lost Card immediately becomes invalid.

Validity

The Card season for 2021 starts from 13 May and ends on 01 November. The Sommercard is valid during this time period.

Rates

The Sommercard cannot be purchased on the open market (except for season cards). Only those who stay in one of our participating lodging establishments and who have officially registered as hotel guests in accordance with applicable Styrian and Salzburg's law, have a right to this Card.

Children

As per the rate schedule for the 2021 season, "Small Children" are those persons born in the years 2016 up to 2021.

Usage

To receive the benefits of the Card, the Card holder must present his Sommercard. The service provider will check the Card with respect to validity and identity, either with authorization equipment, or merely by visually checking the Card details with regards to Card number and the name of the holder. The Card holder is obliged to present a valid photo ID if so requested. Failure to do so may result in his being denied full services.

Damage

In the event of damage to or technical problems with the Sommercard, the Card or tourist business will exchange the Card at no cost.

Misuse

In the event of misuse or any suspicion of misuse, participating Sommercard partners are entitled and obliged to confiscate the Card without compensation. In the event of misuse or well-founded suspicion of misuse of the Card, a formal complaint will be lodged. The Card holder is liable for misuse of the Card by third parties. Theft or loss of the Card obliges the holder to report the incident promptly to ARGE Schladming-Dachstein-Card or the Schladming-Dachstein Marketing GmbH by calling +43 (0) 3687/23310. There exists no right to replacement of the Card. The Schladming-Dachstein Sommercard is non-transferrable. Any misuse, including impermissible use by others, will result in immediate confiscation of the Sommercard without compensation. Misuse may also result in a fine of at least € 70.- as well as filing of a criminal complaint. Any attempt to transfer the Sommercard to another person is regarded as misuse. Each ticket holder must keep the Sommercard in a safe place to insure it may not be misappropriated by third-parties.

Liability Disclaimer with respect to the ARGE Schladming-Dachstein-Card

Holders of the Sommercard accept and understand that the Schladming-Dachstein Marketing GmbH and the ARGE Schladming-Dachstein-Card are solely responsible for the transaction between holders of the Sommercard and the service providers and the participating lodging establishments.

Holders of the Sommercard waive any conceivable claim with respect to warranty or damages against the Schladming-Dachstein Marketing GmbH or the ARGE Schladming-Dachstein-Card, regardless of whether the service provider or participating lodging establishment is blamable for damages or not. Let it be clearly noted that – in so far as it may come to an incident of liability – neither the ARGE Schladming-Dachstein-Card nor the Schladming-Dachstein Marketing GmbH is liable for such damages, the more so since neither the service providers nor the participating lodging establishments are adjuncts of the Schladming-Dachstein Marketing GmbH.

Similarly, holders of the Sommercard may assert no claim for damages against the ARGE Schladming-Dachstein-Card or the Schladming-Dachstein Marketing GmbH in the event that any services listed in the brochure are not discharged by partner businesses.

Jurisdiction

For all disputes resulting from use of the Sommercard, as well as any claims with respect to damages or warrantee, let it be so stipulated that exclusive jurisdiction is held by the responsible Schladming courts and that solely Austrian laws will apply.
